Down: 2. Tacet 3. Legato 4. Natural 5. Treble 6. Sharp

INFO:

If you wish to make alterations it is sensible to ensure that you have the original saved for future reference, but however you chose to proceed, you can customise the clues to your hearts content.

e.g.

1. You may wish to use only one set of clues, in which case you simply need to delete the other.
2. You may prefer to set up a completely new set of clues using hints from your own lessons.

For a classroom activity you may like to give a different set of clues to different individuals or teams. Depending on your situation and needs, this could then be extended to be competitive or co-operative.
